SARA ASEMAN-MANZAR

Software Developer | Android & Web Development

s.asemanmanzar@gmail.com · LinkdIn · GitHub · sara-asemanmanzar.ir

PROFILE

Independent Software Developer with experience in designing, developing, and publishing Android applications using Java and Kotlin. Experienced in building user-focused applications and managing projects from initial concept to release. Also skilled in web development, with an academic research background and multiple publications in Computer Science and Software Engineering.

TECHNICAL SKILLS

Android Development

Kotlin . Java . Android SDK . Android Jetpack . XML Layouts . Kotlin Coroutines . Firebase Analytics . In-App Billing . Ads Integration

Web Development

React.js . JavaScript . HTML . CSS . Responsive Web Design

Development & Design Tools

Android Studio . Visual Studio Code . Git & GitHub . Photopea

UI & Game Development

UI Design . Game Logic . Interaction Design

PROFESSIONAL EXPERIENCE

Independent Software Developer

2019 – Present

- Independently developed Android applications and web projects, taking ideas from initial design through implementation and release.
- Developed Android applications using Java and Kotlin.
- Built responsive web applications using React.
- Designed and developed user-friendly interfaces and interactive features across mobile and web platforms, focusing on usability and user experience.
- Integrated Firebase services, in-app purchases and rewarded advertisements.
- Managed application development, testing and publishing.

SELECTED PROJECTS

Blue Pencil

Android Application | Java

- Independently designed and developed a children's drawing and coloring application from the ground up.
- Implemented interactive coloring activities with a collection of illustrations.
- Developed an interactive character to enhance engagement and the user experience.
- Integrated in-app purchase functionality and Firebase services.
- Achieved approximately 4,000 installations.

Know My Number

Android Application | Kotlin

- Developed an educational application designed to help young children learn and memorize their parents' phone numbers.
- Implemented interactive games, animations, and audio features to support the learning process.
- Designed the application experience with young children's usability and simplicity in mind.
- Integrated Firebase services, in-app purchases and rewarded advertisements.

EDUCATION

Master of Science in Information Technology Engineering

Taali Higher Education Information Technology Institute . 2015

Master's Thesis: Designing a Medicine Decision Support System to Improve Accuracy Using Data Mining Techniques (A Case Study in Audiology)

Bachelor of Science in Information Technology Engineering

Khaje Nasir Toosi University of Technology (K. N. Toosi) . 2012

Bachelor's Thesis: Smart School & University

PUBLICATIONS & RESEARCH

- Authored and co-authored multiple research papers in Computer Science and Software Engineering.
- Research contributions across software-related topics and academic research.
- Published in Conferences.

Selected Publications:

1. Analysis Data Mining Process and Classification Solutions for Solving Problems in Data Per-Process Step (in Persian) — International Conference on Research in Engineering, Science and Technology, Istanbul, Turkey, 2015
2. Classification of Data Pre-Processing Solutions in Data Mining and Knowledge Discovery (in Persian) — 7th Iranian & 1st International Knowledge Management Conference, Tehran, Iran, 2015
3. Customer Relationship Management and its Implementation of an Organization (in Persian)" — National e-Conference on Advances in Basic Sciences and Engineering, 2014
